## Affordable Maintenance Tracking & Digital Aircraft Records

At SierraTrax we are passionate about aviation. As pilots who have experienced firsthand the frustration of dealing with expensive, overly complex maintenance tracking systems, and inaccurate spreadsheets that can miss due items, our philosophy is simple – we want to deliver the best solution at a fraction of the cost and exceed our customer’s expectations at every turn. SierraTrax offers an affordable, easy-to-use platform that turboprop owners and operators have come to appreciate.

"I went to SierraTrax and signed up. Great communication and quick turnaround...modern looking dashboard and reporting. It appears to have all we need and looks super easy to use." – *Craig Roah, President, Tom's Aircraft, Long Beach, California*

### SierraTrax Key Features:

- ✓ Easy-To-Use Interface That Updates in REAL TIME
- ✓ Customizable Reports & Maintenance Due Notifications
- ✓ Scanning Solution to Convert Your Paper Logbooks into Digital Aircraft Records (**COMING SOON!**)
- ✓ Cloud-Based Architecture for Backing Up Your Records to Keep Them Safe
- ✓ Latest Technology Standards for Fleet or Single Owner-Operators

"As a 135 Charter Certificate Operator, a maintenance tracking program is an essential tool. SierraTrax more than fits the bill. Our operation currently has two King Airs and one CJ3 enrolled...the initial program set-up was seamless...An added bonus, SierraTrax is budget friendly compared to other available options." – *Doug Onieu, Director of Maintenance, Air Unlimited, Sanford, Florida*

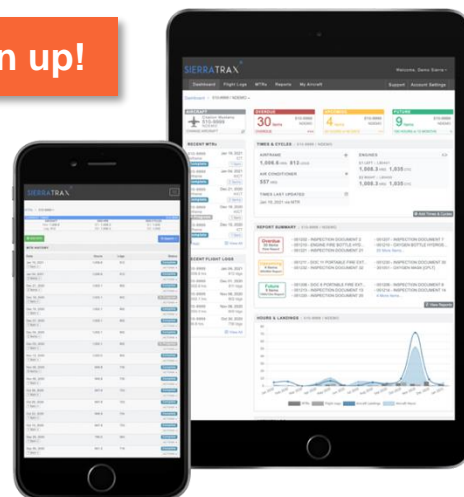

### Additional Advantages:

- ✓ Data Privacy That Keeps You in Control of Who Has Access to Your Aircraft Records
- ✓ No Long-Term Contracts or Fees That Hold Your Data for Ransom
- ✓ Seamless Transition from Other Maintenance Tracking Programs
- ✓ Transferrable at Aircraft Sale or Management Company Change
- ✓ Friendly Support from Dedicated Team of Industry Experts
- ✓ Maintenance Marketplace for Bids on Scheduled Maintenance

### Textron Aviation Recommended Maintenance Tracking

SierraTrax has partnered with Textron Aviation as a Recommended Maintenance Tracking Provider for Cessna and Beechcraft operators. All factory New and Pre-Owned aircraft delivering from Textron Aviation receive the first year of SierraTrax maintenance tracking services absolutely FREE. After that, and for all other in-service turboprop aircraft, SierraTrax subscriptions are just \$600 a year.
