

FREE Maintenance Tracking for King Airs

At SierraTrax we are passionate about aviation. As pilots who have experienced firsthand the frustration with some of the current maintenance tracking providers, our mission is to provide a simple, intuitive, and affordable maintenance tracking solution that fits the desires of today's customer. Our philosophy is simple – we want to deliver the best solution at a fraction of the cost, and exceed our customer's expectations at every turn.

Jets only \$99 per month

SIERRATrax

Aircraft Maintenance Tracking

Key Features:

- Easy to use intuitive system that updates in REAL TIME
- Data privacy that keeps you in control of who has access to your data and how it is used
- No long-term contracts or fees that hold your data for ransom
- Transparent set-up process that's quick and easy
- Friendly Support from our team of aircraft experts
- FREE maintenance tracking solution for King Airs

Additional Advantages:

- Designed, owned and operated by pilots, for pilots
- Only the features you need, not an overpriced package of services
- Accurate display of new and updated maintenance requirements
- Latest technology standards for fleet or single owner-operators
- Solutions for multiple aircraft types
- Modern cloud-based architecture
- Maintenance analytics & digital document archiving
- Customizable reports & maintenance due notifications
- Reporting of times & cycles for Textron Aviation ProAdvantage® programs.

Factory Recommended to Preserve Your Aircraft Value

SierraTrax has partnered with Textron Aviation as a Recommended Maintenance Tracking Provider for Cessna, Beechcraft & Hawker Operators. All Factory New and Pre-Owned Aircraft delivering from Textron Aviation will receive a FREE year of SierraTrax maintenance tracking services. Going forward, and for all other Textron Aviation In-Service Business Jets, SierraTrax subscriptions are just \$99 per month. Subscriptions for Beechcraft King Airs remain FREE of charge.

Customer Testimonials:

"I went to SierraTrax and signed up. Great communication and amazingly quick turnaround. I have only had time to spend a few minutes in the system, but it looks great; modern looking dashboard and reporting. It appears to have all we need and looks super easy to use."

– Craig Roah, President, Tom's Aircraft, Long Beach, California

"As a 135 Charter Certificate Operator, a maintenance tracking program is an essential tool. SierraTrax more than fits the bill. Our operation currently has two King Air 200's and one CJ3 enrolled in the SierraTrax program. The initial program set up was seamless. Subsequent corrections/additions are resolved efficiently and in a timely manner thanks to Chris Webber and his team. Our primary maintenance inspector is also impressed with the program. I would highly recommend SierraTrax to any operator with maintenance tracking needs. An added bonus is SierraTrax is budget friendly compared to other available options."

- Doug Onieu, Director of Maintenance,
Air Unlimited, Sanford, Florida

Not everything in aviation has to be expensive. Switch from CAMP or your other high-priced Maintenance Tracking Service today and experience the difference with SierraTrax.
